APPLICANT'S STATEMENT OF SUBSTANCE OF INTERVIEW

Mail Stop Amendment Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

The Examiner is thanked for the courtesy of a telephonic interview on August 19, 2010. The Ollivier reference (U.S. Pat. No. 6,450,200) was discussed. It was discussed how Ollivier includes a pressure regulator that results in a fundamentally different type of measurement process than the claimed invention. No agreement was reached, as the Examiner contended that Applicant's specification does not explicitly teach the absence of a pressure regulator.

Respectfully submitted, BEYER LAW GROUP LLP
